THE CABIN

# A private lounge for *14 guests.*

The main cabin of the Gulfstream G650ER is set up as a lounge in the sky: wide leather seats that swivel and recline, polished veneers, soft lighting and large windows on both sides.

The cabin is divided into separate zones, so you can talk, work or rest at the same time without disturbing each other.

DINING & WORKING

# Lunch at *forty thousand feet.*

Tables open up for a proper meal or a meeting. We arrange the catering to your taste before departure, from a light Mediterranean lunch to a full dinner, with the wines and champagne you prefer.

Wi-Fi is available on board on request, so the flight is as productive or as relaxed as you want.

GALLEY & WASHROOM

# Every detail, *on board*.

The galley is stocked before every flight with your food, drinks and any special requests, from dietary menus to your favourite brands.

The washroom is located forward & at the rear. Pets: no.
